- **Impactful Visibility :** Large-format visuals captivate attention and deliver impactful brand messages, leaving a lasting impression on viewers.

Advantages of Billboard Advertising in Kenya

- **The Strategic Placement Advantage:** One of the key elements that make billboard advertising thrive in Kenya is its strategic placement. From the busy streets of Nairobi to the picturesque landscapes along major highways, billboards strategically position brands in the line of sight of their target audience. This geographic precision ensures that businesses can reach potential customers where they live, work, and travel, maximizing visibility and recall.
- **Connecting with the Mobile-First Generation:** Billboard advertising in Kenya complements the digital lifestyle by creating memorable visual experiences that seamlessly integrate with online campaigns. Kenya's population is increasingly tech-savvy, with a significant portion relying on smartphones for information and entertainment. Smart advertisers leverage QR codes and interactive elements on billboards to drive online engagement, creating a bridge between the physical and digital worlds.

messaging.

Billboards Advertising costs in Nairobi, Mombasa etc.

When it comes to billboards advertising costs, Nairobi and Mombasa lead the pack in Kenya, followed by cities like Kisumu, Nakuru, and Eldoret. This is because these urban centers are the country's most experiential marketing hubs, boasting dense populations, dynamic companies across various sectors like banks, tech startups, retail, fashion, media, and manufacturing, and millions of consumers who rely on public transportation daily. As a result, billboard advertising costs in these Kenyan cities can range from KES 350,000 to KES 650,000 per month for static billboards and from KES 1,000,000 to KES 2,500,000 per month for digital (LED) billboards. We are dedicated to making billboard advertising in Kenya as accessible as possible, working with businesses of all sizes, from top industries to SMEs, to design, print, and install indoor and outdoor billboards across the country.

Types of Billboards in Kenya

While there are numerous types of billboards, let's explore three popular options for the sake of the article

1. Bulletin Billboard (Link to the various categories)
2. Digital Billboard
3. Mobile Billboard

Bulletin Billboards:

These Bulletin billboards are the most widespread, towering at 48 feet wide and 14 feet high, captivating both drivers and pedestrians. Commonly found on:

Expressways, Highways, Roads with heavy traffic, they offer excellent brand visibility at strategic locations. Expect costs to range from KES 250,000 to KES 700,000 per month, making them a comparatively affordable option. The price depends on location, production expenses,

and the specific site you choose.

Digital Billboards:

Dazzling the streets of Nairobi, Mombasa, and other bustling Kenyan cities, digital billboards showcase everything from telecom services to personal care products with dynamic displays. Strategically positioned in high-traffic areas, they captivate audiences and grab attention effortlessly. The customizable nature and eye-catching visuals come at a premium. Monthly costs typically start at KES 1,000,000 and can easily climb to KES 2,500,000 or even higher based on factors like location, demographics, and the specific billboard features.

Mobile Billboards:

Mobile Billboards are of two types;

“flex” (printed) and LED. As the name suggests, they deliver your message directly to your target audience, effortlessly navigating busy streets and major events.

Static (flex) mobile billboards offer cost-effective exposure, ranging from KES

50,000 to KES 100,000 per month. For the vibrant impact of LED mobile

billboards, anticipate a range of KES 250,000 to KES 700,000, influenced by state, duration, and the number of vehicles involved.

Advantages of Mobile Billboards (Flex and LED) in Kenya:

- **Reaching Untapped Locations:** Unlike static billboards confined to specific sites, mobile units go where the action is. They can navigate bustling market streets, traverse rural areas, and even reach remote destinations, exposing your brand to audiences inaccessible through traditional billboards.
- **Reduced Competition:** With fewer mobile billboards compared to static options, your message stands out against less saturated media environments. This reduces “visual clutter” and increases the likelihood of capturing attention amidst busy Kenyan streets.
- **Broader Audience Targeting:** Mobile billboards act as roving ambassadors, captivating everyone from pedestrians in Nairobi’s vibrant city center to motorists on Mombasa’s coastal highways.

This flexibility allows you to target diverse audiences across urban, suburban, and even rural locations, broadening your campaign's reach beyond traditional billboard limitations.

TV Advertising Cost in Nigeria

TV Advertising Cost in Nigeria Rates for Major Stations (Arise TV, Channels, AIT, TVC, NTA)

Do you want to know the cost of advertising on TV in Nigeria? It's an important question for any business or brand today. After all, Nigerians love TV and spend an average of 3 hours a day watching it – so it has the potential to be very effective as an advertising medium.

For a free consultation about TV Advertising Costs in Nigeria Rates for Major Stations (Arise TV, Channels, AIT, TVC, NTA) Call 08140806869 or 07014039333

The cost of advertising on TV in Nigeria can vary greatly depending on the channel you choose. There are many major stations that offer their own rates and packages – such as Arise TV, Channels, AIT, TVC, NTA and more. To make it easier for you to get an understanding of what's involved, here we'll go over the different channels and their respective rates so that you can compare them and make a well-informed decision.

Arise TV Advertising Rates

If you're looking to get your message out on Nigerian television, Arise TV is a great option. Arise TV is one of Nigeria's most popular TV stations, and advertising on its channels can be quite cost-effective.

The rates for an advertisement on Arise TV typically range from ₦10,000 to ₦18,000 for a ten-second slot during primetime programs. Rates can also vary depending on the day of the week and time of day that your ad airs. For example, an ad airing during a weekend program can be up to 20% cheaper than an ad aired during a weekday program.

In addition to the cost of airtime, you'll need to factor in production costs which can range from ₦200,000 to ₦500,000 depending on the type of advertisement you'd like to create. With these rates in mind, it's easy to see why advertising on Arise TV can be an affordable option for businesses looking to make an impact in the Nigerian market.

Channels TV Advertising Rates

Advertising on Channels TV can be quite expensive and varies depending on the length of the commercial (15, 30 or 60-second spots). Generally, a 15-second spot costs around ₦100,000 per day. A 30-second spot will cost around ₦200,000 per day and a 60-second spot costs about ₦400,000 per day. You must also consider production costs of your commercial if you do not already have an ad ready to go.

It's worth noting that these prices are based on buying airtime on one particular station – so if you want to air your advertisement across multiple channels and networks, then you should expect your costs to increase accordingly.

AIT (Africa Independent Television) Advertising

Rates

AIT (Africa Independent Television) is one of the biggest TV stations in Nigeria. If you're looking for something that will reach a large audience, then AIT is a great option. But how much does advertising on AIT cost?

When it comes to TV advertising, there are a few factors that go into the overall cost. The first is the time slot you choose – typically, prime time slots (like those during big events or near holidays) will cost more than regular timeslots. Second, you'll need to consider the length of the commercial – this will affect pricing as well. And lastly, you'll also want to consider any extra costs like production or editing services.

The cost of advertising on AIT can range from ₦400,000 up to ₦2 million depending on your needs. Here are some examples of potential costs for 10-20 second spots:

- **10 seconds = ₦ 400k - ₦ 750k**
- **20 seconds = ₦ 550k – ₦ 1 million**

For longer commercial spots (30 seconds or more), prices may range from ₦2 million and beyond depending on how many slots and when they air. So as you can see, there is quite a bit of room for flexibility when it comes to choosing an advertising package with AIT.

TVC Advertising Rates

When you're trying to decide which TV station to advertise on, one of the biggest decisions is cost. After all, you want to get the most bangs for your buck and don't want to spend too much on advertising.

So what should you expect to pay when advertising on TVC? Here's a quick breakdown:

30-second ad spots:

A 30-second advertisement on TVC ranges from ₦80,000-₦400,000. Prices may vary depending on the type and duration of ad spots you want.

Promo Spots:

You can also purchase promo spots from TVC that air from 1-3 times per day over a period of two weeks – these range from ₦200,000 – ₦300,000. All in all, you could expect an advertising campaign with TVC Nigeria to set you back at least half a million naira per month.

NTA Advertising Rates

When it comes to advertising your business in Nigeria, you'll definitely want to consider NTA as an option. After all, the network boasts an impressive reach, with millions of viewers tuning in every day for the latest news.

So what about cost? Here's what you can expect:

1. Gearing up for a single ad campaign can cost anywhere from ₦100,000 to ₦500,000 (or more!)
2. Weekly ad packages start at around ₦280,000 for single spot placement
3. Monthly ad campaigns range from ₦1.4 million to ₦7 million
4. For a full year's worth of ads, plan on investing around ₦18 million
5. Production fees vary based on media type (video vs. audio vs. graphics) and length of your campaign

Additionally, NTA offers discounts on certain packages and can help tailor an inexpensive package that meets your budget and advertising needs. All in all, NTA is an excellent choice when it comes to TV advertising in Nigeria and beyond!

Alternative Advertising Options besides TV: [Billboards](#), Radio, Digital Ads

Another way of getting your message across Nigeria is through [billboards](#). The rates can range from ₦5,000 to ₦500,000, depending on its location and size.

If you're looking for a more cost-effective option, radio advertising can also be a great choice. It costs approximately ₦8,500 to ₦40,000 for a 30-second slot on any radio station in the country.

As for digital advertising, rates start from as low as ₦ 1,000 per month – which makes it a great option if your target audience is tech-savvy. Additionally, you can be more precise with the targeting options available with digital ads like display ads or social media advertising.

Whether you're opting for TV advertising or any of the alternative options mentioned above, all of these involve an upfront payment and could require you to work with numerous vendors. Before committing to any type of advertising campaign in Nigeria, it's important to consider budget restrictions and overall goals in order to make the best decision possible.

TV Advertising Cost in Nigeria

Conclusion

While TV advertising might be a great way to reach a large audience, it's important to remember that it's not the only option. Other forms of alternative advertising, such as digital media, streaming services, and out-of-home advertising can also be used to reach people in Nigeria. Depending on your budget and target audience, you might want to consider these other options as well.

When it comes to TV advertising costs in Nigeria, there are various factors that come into play. Cost fluctuates based on things like the duration of the ad and the time of day it's aired. Lamp pole advertising in Lagos

Lamp pole advertising in Lagos is a popular and strategic way for brands to successfully get their audience's attention. [Lamp pole advertising](#) is not only efficient but also cost-effective. In Lagos, Lamp pole advertisements are popular, especially in areas like the Local and International Airport, VI, Ikeja, Ikoyi, Surulere, Lagos Island, and Lekki.

Advertising on lampposts is strategically placed to engage both locals and tourists. Lamppole advertising in places like Ikeja, VI, Surulere, Lekki, Lagos Mainland, and Ikoyi provides maximum visibility and effect whether it's promoting upscale real estate, designer clothing, or fine dining experiences

Ikoyi, a high-class neighborhood in Lagos, is well known for its calm streets, abundant vegetation, and beautiful buildings. Ikoyi's illuminated streets, which are lined with tempting billboards, add to the atmosphere and showcase the affluent way of life there. In Ikoyi, lamp poles are being used for more than just structural support; they are also used by brands for eye-catching advertising/marketing. Lamppole advertising is a great technique for brands aiming to reach the wealthy Ikoyi population to spread their messaging.

VI, or Victoria Island, is well recognized for its impressive

skyscrapers, business headquarters, and vibrant nightlife. Advertising on lampposts makes it easier to connect with the diverse population that frequents the area, both visitors and professionals that come to VI.

Benefits of Lamp pole advertising in Lagos

Lagos State's capital, Ikeja, is a bustling environment that has offices, homes, and administrative structures. Lamppost advertising is a vital part of connecting brands with the diverse demographic that calls Ikeja home. The lamp poles here serve as an informative avenue to disseminate messages about everything from local businesses to community events.

A lamp pole advertisement typically costs between N70,000 to N80,000 depending on the location in Lagos. You would probably agree with me that purchasing ten (10) poles in a certain place would be less expensive compared to the cost of a single billboard in the same position if this sum were to be compared to the price of a billboard in the same location.

As opposed to other forms of advertising where all impressions are gathered from a single point; lamp pole advertising provides a unique method where the impressions are distributed in a repetitive method (for instance, getting 20 lamp posts in a single location creates more frequency and repetitive impressions). Hence, people driving can read through the display Ad severally as they drive through the specific location.

In conclusion, as Lagos develops and grows Lamp Pole advertising will remain a dynamic tool for marketers to interact with their target customers. Lamp pole advertisements offer an immersive experience by utilizing the power of illumination and thoughtful placement, increasing the brightness and vitality of the location while delivering

powerful messages to its audience.

Promotional Gift Items and Election branding materials printing in Nigeria – Giveaways items or Products: The materials you need for success

The Modern Day Nigeria election campaign will consist of a mix of printing promotional gift items, digital marketing, and traditional advertising to guarantee victory and success.

To run an effective election campaign in Nigeria, you need to adopt a diversified and aggressive communication strategy. This means promoting the candidate and their values through digital channels like Websites, Mobile apps, social media, SMS, Voice SMS, etc. And through traditional channels like TV, Radio, [Billboards](#), newspapers, also printed communication like promotional gift items, etc.

[Social media](#) platforms let you talk about a candidate's campaign day after day, even hour after hour in real-time. You can share videos, images, and live streams. So, you should definitely make the most of social media platforms like Facebook, Twitter, Instagram, Tiktok and Superfan, etc in your election communications.

However, you need to remember that the social media platform's audience is heavily skewed towards young people, whereas the electorate as a whole has a much older demographic which uses social media far less than the youth. For these voters, traditional printed communication remains a tried and tested method.

The Key advantages of offline communication and printed electoral material in Nigeria.

On the internet, our attention is overloaded by enormous amounts of information on a daily and hourly basis. This, however, does not happen when someone is walking down the road and sees an election poster, is handed a candidate's business card or picks up a flyer and stops to read it.

The electorate can read it straight away, or at their convenient time when they get to the office, home or shop, and that printed message will always be there: it won't be lost among thousands of social media notifications.

Furthermore, holding printed material of a candidate involves the reader's sense of touch, as well as sight, which stimulates more areas of the brain, increasing the likelihood of the message being remembered.

So, while a candidate can pretty much campaign live on social media, printed election material/gifts remain essential. That's why both strategies are needed to support each other and strengthen the candidate's image among potential voters.

Effective election campaigns should include [Election campaign material](#).

To run an effective electoral campaign, you need to convey clear messages and capture the attention of the electorate. There are many printed materials for doing just this. Let's

take a look at some of them.

1. T-shirts

Branded T-shirts are always a huge hit with political campaigns for many reasons. First of all, Nigerians love receiving them. That's not the only key reason though.

The real benefit of election campaign products like t-shirts is that they allow your message to continue long after specific events like rallies end.

The People wearing these T-shirts keep spreading your candidate's message as they wear them over and over again until election day.

2. Printed Election stickers, pin badges, and promotional gift items

Why not actively involve your supporters and electorates in the election campaign? With customized pens, pin badges, stickers, etc, You can also make future voters an integral part of the election campaign.

Promotional Gift items are always popular and spread quickly,

from one person to another. A pin badge worn on a jacket, a pen used at work/school, or a sticker placed in the right place becomes small but effective reminders of the forthcoming Nigeria elections.

3. Hats & Caps

Wearables like Hats & Caps are always a good bet because they are useful long after rallies and other campaign events are over.

With many campaign events held well ahead of voting day hats and caps offer abundant opportunities for attendees to show off their new gear at future events or simply to wear them around town.

Hats and Caps have proven amazingly useful in past political campaigns in Nigeria, and have even gained some degree of notoriety in political circles.

The point to remember is that hats and Caps are easily identifiable, easy to wear, and seen by many.

4. Umbrellas

Come rain or sunshine, this election year coming 2023. Umbrellas offer supporters and the electorate the advantage to show their love for their favorite political party or candidates no matter what the weather is doing by providing shade from relentless sunshine and protection from the rain.

5. Printable Hand Fans

People get hot on the campaign trails and other events, and hand fans can help audiences keep their collective cool. Print them with a campaign or party slogan and hand them out freely – especially at rallies and other events.

Printable Hand Fans can be given as gifts to donors and supporters alike. With some events being held outdoors or in crowded, overheated spaces, these campaign fans may be some of the most sought-after items at your next campaign event.

6. Reusable Bags

Reusable grocery bags with a party logo or campaign logo are almost ideal promotional items for political campaigns this 2023 election session.

They are easily customizable to display the messages of the candidate's choice and they are incredibly versatile. Think of all the things people use reusable canvas bags for on daily bases:

Like;

A. Supermarket trips

B. Carrying books and other materials

C. Trips to the gym

D. Running errands

These reusable customizable grocery bags are not only useful, and highly visible as supporters go about their days, but they also share important messages about a party and a candidate's commitment to the people.

You can even offer customized reusable sling backpacks with campaign messages to allow the hands-free carrying of your message day in and out until the election day, and to show support for candidates once election day passes.

The more of these bags you pass out at events or schools, the more opportunities abound for people to promote your candidate actively and passively as they go about on daily bases.

7. Reusable Water Bottles

Giving out Reusable Water Bottles instead of one use bottle of water is not only to protect the planet.

Reusable water bottles are indeed useful Printed campaign materials items that people often take with them wherever they go.

If water isn't something you get all that excited about, they

also have reusable cups for hot and/or cold drinks that are equally big hits.

Make sure you choose items that are easily portable so they get added exposure as supporters carry their bottles or cups with them as they go about their busy days.

These 7 Campaign materials for election get top marks from campaigns and constituents alike.

Make sure you have a wide cross-section of Campaign merchandise ideas to hand out at events to keep people coming back for more and encourage them to spread the word about their favorite political party or candidates.

Get 2 months of a corporate business email address for free – na**@yo*****.com

**Free Corporate
email address
for 2 months**

How to get 2 months of a corporate business email address for free – yourname@yourcompany.com

Sending emails from your corporate email address like name@yourcompany.com helps to enhance your corporate image. **The challenge is that if you rely on the email from your website hosting server, you will have issues with being able to have your important business email delivered into the recipient's inbox, most often the email goes to spam or is not delivered at all, because your website hosting server is not an email server, Hence the reason serious business people host the corporate email on a proper email server.**

But with the naira sliding downwards against the US Dollars on daily bases I can understand the negative impact it is having on your business!

We had a client who is right where you are now some months back, the client had 48 staff and all had corporate email addresses at \$6 per user per month which is \$72 per year. And $\$72 \times 48 = \$3,456$ (Three thousand four hundred and fifty-six dollars), as at the time he wanted to renew with the previous provider the exchange rate was 655/\$1 and he was to pay N2,263,680.

When I told him we could save him a million naira, you can understand the joy, we migrated his account to another corporate email provider that charge just **\$25 per year, \$25 x 48 user = \$1200, 00 x N655 = N786, 000.**

We actually saved him **N1, 477,680 (One million four hundred and seventy-seven thousand six hundred and eighty naira)**

You are losing lots of money using an expensive corporate email address provider because they show you lots of other features when in reality what you and your staff use is just an email.

My kind advice to you.

If you don't want to switch to a more affordable email platform, another thing you can do is create a corporate email address for only the senior staff names, and for the rest of the staff create a department-based corporate email address.

For your admin department for example, instead of creating a corporate email address with an individuals names like john@yourcompany.com, create admin@yourcompany.com, With that method, you will save money in two ways

1. If you have 2 people in admin both will use one email and enter their names when they are sending an email.
2. If anyone resigns and you employ another person you don't have to pay for a new email account for the new staff, the person will just continue from where the other staff left off, that way no communication will be lost as well.

Corporate email address price comparison in Nigeria

Providers	Google G Suite	Microsoft Office 365	Private Corporate email
Monthly cost per user	\$6	\$6	\$2.5
Minimum Yearly cost per user	\$72	\$72	\$25

The only difference is that the first two have some other features like Video, Documents, Spreadsheet, etc. But you can get all those other features at no cost online and offline.

If you have up to 5 staff you are most likely losing lots of money yearly, and it will continue to increase as long as the Naira continues to slide downwards against the US Dollars.

Take action today and save more money you can channel into other important parts of your business.

Digital marketing can be tracked through detailed diagrams. Or a dashboard that clearly users activities traffic growth, New and returning users, leads, and deals transformations from your particular marketing efforts.

Utilizing free analytics tools like Google Analytics will help you measure the success of your digital marketing campaigns and an internet-marketing audit helps you perceive how well your digital marketing projects are performing daily.

We will use the best tools for your digital marketing campaigns that will automate your campaign in a target-oriented fashion, and at the same time, you can invest your energy in accomplishing something else.

Segmentation:

One of the key advantages of marketing over digital platforms is the ability to target specific customers, it also allows for detailed customer segmentation.

Customer segmentation is the process in which large customer groups are further broken down into smaller groups of customers according to a particular classification. Segmentation increases the chances of sales, as well as cuts down on cost.

Adequate information must be collected from subscribers for segmentation to work effectively in any given campaign.

Greater engagement:

The internet is getting noisier by the day, and any product or service that your business offers is most likely also being offered by thousands of other businesses.

If a visitor to your website does not immediately find what they are looking for? They are most likely to leave for an alternative. That is the main reason we often create engaging content and provide precise information to visitors to ensure increased engagement and conversion.

DEMOGRAPHIC TARGETING

Digital Marketing is Powerful in Demographic Targeting, Provides Real-Time Results, and Ensure Quick & Convenient Service Delivery.

Knowing how much a digital marketing campaign effort can target and measure the reaction from particular demographics is quite astounding to entrepreneurs who generally prefer traditional media advertising.

Some online platforms and analytical software can permit you to explicitly focus on the particular buyer demographics. To target doctors, owners of hospitals and medical facilities, and the general public, you will require a digital marketing methodology to contact them where they invest the majority of their time i.e. on the Internet.

With Various digital marketing platforms, you do not need to hold up weeks to see a noticeable boost in your business. With paid digital marketing platforms like Google, Facebook, Instagram, etc. You can see real-time results that empower you to adjust your marketing campaign to accomplish the result you always wanted.

There might be a few chances where online marketing might not work up to expectations. Hence, with continuous real-time monitoring, we can precisely find out where the marketing campaign is going wrong and therefore enforce a better strategy that will guarantee a better result.
