It is a device used for advertising on the sides of trucks, trailers, buses, and so on, anything that is mobile. It is a type of medium that displays digital images that are changed frequently by a computer system.

Digital billboard trucks are one the effective ways of flashing your brand and no brand can grow without effective advertising. It plays a major part when it comes to marketing and branding, it just requires one's creativity.

With digital billboards trucks, information about your brand gains your followership's attention quickly, unlike the internet which has features such as "SKIP-THE-AD" features thereby reducing the followership's exposure.

Digital billboards have become popular when it comes to exposure, it has also become a very effective intercity advertising system in Nigeria.

Digital billboard trucks are used due to the perceived benefits such as being suitable to deliver a message in places where traditional billboards are unapproachable.

Many find it advantageous because the message is more likely to be tuned out by drivers than other advertising media, another advantage is that it does not get cluttered by other advertisement and are not generally seen near competitors.

LEADS OF LED LIGHT ADVERT TRUCK IN NIGERIA.

1. **BRAND RECOGNITION**: Digital billboard trucks help to get your advertising message faster and allow more people to see your brand, be familiar with it and thereby creating awareness and recognition

Take, for instance, a driver stuck in traffic or waiting for the traffic light to turn green comes across a 15ft mobile billboard beside them, it would be hard to ignore especially if it is your favorite brand promoting its new product.

It allows the audience to recall the brand's message which they have seen when purchasing a brand.

2. **COST-EFFICIENT**: Digital billboard trucks are cost-effective, it is not as costly as you might expect. It is more affordable than renting traditional billboards which can be restricted.

When your company has a LED light truck, it would be an important investment for the company also, they could use it to transport goods or employees and use that opportunity to make people aware of their brand by using the truck simultaneously.

3. **LARGE AUDIENCE REACH**; Digital billboard trucks allow your content piece about your business to be displayed by many heterogeneous audiences, through this you have a chance of reaching out to as many people as possible.

The advantage of digital advertising is that it can deliver your message to the audience regardless of their location.

The virtue of mobility and visibility enables digital advertising to generate more revenue, which is high compared to other means of advertising.

4. **ADVERTISING CONTROL AND POWER**: Digital billboard trucks allow you to decide and have control of where and when you want your advertisement to come up or show up.

It allows you to group your consumer according to their demographic; age, location, etc.; to be better equipped to advertise in the right place, drawing more audience nearer. This allows you to put all your marketing strategies to use.

You can always change your location if that location becomes sparse throughout the day.

5. **FLEXIBILITY**: Digital billboard trucks are versatile

because it is not confined to offline or online advertising method. They can broadcast anywhere, anytime, and at any place.

Traditional billboards are usually situated in one area, which means only those that pass that particular area can see a glimpse of them, while for digital advertising, users need to surf the web before they come across the advertisement.

Digital billboard trucks on the other hand allow you to combine online and offline advertising and spread it in your locality. Digital billboard trucks are not limited by geographic location.

LAPSES OF LED LIGHT ADVERT TRUCK IN NIGERIA

1. **DISTRACTION:** Digital billboard trucks are placed around important intersections, which distract drivers and pedestrians and become risky for them.

Glaring neon lights and signs have potentially deadly consequences for instance an eye-catching and bright digital billboard truck can risk the life of the driver as it may distract them.

2. **UNCERTAINTY IN RETURN ON INVESTMENT:** The return of investment on digital billboard trucks takes time and it is hard to calculate.

It is high to install a digital billboard truck for a large organization. The sales increase in the advertisement when thinking of unfortunate events such as damages.

3. **COST:** Advertising on one digital billboard truck is not enough, as it is important to engage your digital billboard truck in more than one location for a minimum

of time.

Getting several digital billboard trucks is expensive compared to the static billboard.

4. **LIGHT AND NOISE POLLUTION OF DIGITAL BILLBOARD TRUCK:**

The brightness of the digital billboard is usually very bright and we usually feel eye discomfort;

This is the so-called **LED SCREEN LIGHT** pollution. It is also dangerous for drivers to see the high brightness of the digital billboard trucks while driving at night.

5. **LACK OF KNOWLEDGE:** The operation and installation of a large digital billboard truck are not easy especially for a layman or beginner as it involves a high chance of mistakes.

Due to a lack of understanding of technology, operation, and repairing the beginners may lag. The choice of the wrong location can also be a disadvantage.

CONCLUSION

In conclusion, a digital billboard truck is very reliable and effective for marketing and advertising your brand. The use of the digital billboard truck also comes with disadvantages.

Every product that has an advantage also has a disadvantage. However, the discussion shows that there are several setbacks when using digital billboard trucks, but going further we can say that the advantages outweigh the disadvantages.

Despite the setbacks, the digital billboard truck is still the best means to rely on, because it helps in reaching the right

audience faster.

If you have thought about using a medium of advertising, now is the right time. Choosing the best outdoor advertising for your brand might be tedious, the same goes with choosing the right one.
