Promotional Gift Items and Election branding materials printing in Nigeria – Giveaways items or Products: The materials you need for success

The Modern Day Nigeria election campaign will consist of a mix of printing promotional gift items, digital marketing, and traditional advertising to guarantee victory and success.

To run an effective election campaign in Nigeria, you need to adopt a diversified and aggressive communication strategy. This means promoting the candidate and their values through digital channels like Websites, Mobile apps, social media, SMS, Voice SMS, etc. And through traditional channels like TV, Radio, [Billboards](#), newspapers, also printed communication like promotional gift items, etc.

[Social media](#) platforms let you talk about a candidate's campaign day after day, even hour after hour in real-time. You can share videos, images, and live streams. So, you should definitely make the most of social media platforms like Facebook, Twitter, Instagram, Tiktok and Superfan, etc in your election communications.

However, you need to remember that the social media platform's audience is heavily skewed towards young people, whereas the electorate as a whole has a much older demographic which uses social media far less than the youth. For these voters, traditional printed communication remains a tried and tested method.

The Key advantages of offline communication and printed electoral material in Nigeria.

On the internet, our attention is overloaded by enormous amounts of information on a daily and hourly basis. This, however, does not happen when someone is walking down the road and sees an election poster, is handed a candidate's business card or picks up a flyer and stops to read it.

The electorate can read it straight away, or at their convenient time when they get to the office, home or shop, and that printed message will always be there: it won't be lost among thousands of social media notifications.

Furthermore, holding printed material of a candidate involves the reader's sense of touch, as well as sight, which stimulates more areas of the brain, increasing the likelihood of the message being remembered.

So, while a candidate can pretty much campaign live on social media, printed election material/gifts remain essential. That's why both strategies are needed to support each other and strengthen the candidate's image among potential voters.

Effective election campaigns should include [Election campaign material](#).

To run an effective electoral campaign, you need to convey clear messages and capture the attention of the electorate. There are many printed materials for doing just this. Let's take a look at some of them.

Promotional Gift Items and Election branding materials printing in Nigeria – Giveaways items or Products

- 1. T-shirts**
- 2. Printed Election stickers, pin badges, and promotional gift items**
- 3. Hats & Caps**
- 4. Umbrellas**
- 5. Printable Hand Fans**
- 6. Reusable Bags**
- 7. Reusable Water Bottles etc**

1. T-shirts

Branded T-shirts are always a huge hit with political campaigns for many reasons. First of all, Nigerians love receiving them. That's not the only key reason though.

The real benefit of election campaign products like t-shirts is that they allow your message to continue long after specific events like rallies end.

The People wearing these T-shirts keep spreading your

candidate's message as they wear them over and over again until election day.

2. Printed Election stickers, pin badges, and promotional gift items

Why not actively involve your supporters and electorates in the election campaign? With customized pens, pin badges, stickers, etc, You can also make future voters an integral part of the election campaign.

Promotional Gift items are always popular and spread quickly, from one person to another. A pin badge worn on a jacket, a pen used at work/school, or a sticker placed in the right place becomes small but effective reminders of the forthcoming Nigeria elections.

3. Hats & Caps

Wearables like Hats & Caps are always a good bet because they are useful long after rallies and other campaign events are over.

With many campaign events held well ahead of voting day hats and caps offer abundant opportunities for attendees to show off their new gear at future events or simply to wear them around town.

Hats and Caps have proven amazingly useful in past political campaigns in Nigeria, and have even gained some degree of notoriety in political circles.

The point to remember is that hats and Caps are easily identifiable, easy to wear, and seen by many.

4. Umbrellas

Come rain or sunshine, this election year coming 2023. Umbrellas offer supporters and the electorate the advantage to show their love for their favorite political party or candidates no matter what the weather is doing by providing shade from relentless sunshine and protection from the rain.

5. Printable Hand Fans

People get hot on the campaign trails and other events, and hand fans can help audiences keep their collective cool. Print them with a campaign or party slogan and hand them out freely – especially at rallies and other events.

Printable Hand Fans can be given as gifts to donors and supporters alike. With some events being held outdoors or in crowded, overheated spaces, these campaign fans may be some of the most sought-after items at your next campaign event.

6. Reusable Bags

Reusable grocery bags with a party logo or campaign logo are almost ideal promotional items for political campaigns this 2023 election session.

They are easily customizable to display the messages of the candidate's choice and they are incredibly versatile. Think of all the things people use reusable canvas bags for on daily bases:

Like;

- A. Supermarket trips**
- B. Carrying books and other materials**
- C. Trips to the gym**
- D. Running errands**

These reusable customizable grocery bags are not only useful, and highly visible as supporters go about their days, but they also share important messages about a party and a candidate's commitment to the people.

You can even offer customized reusable sling backpacks with campaign messages to allow the hands-free carrying of your message day in and out until the election day, and to show support for candidates once election day passes.

The more of these bags you pass out at events or schools, the more opportunities abound for people to promote your candidate

actively and passively as they go about on daily bases.

7. Reusable Water Bottles

Giving out Reusable Water Bottles instead of one use bottle of water is not only to protect the planet.

Reusable water bottles are indeed useful Printed campaign materials items that people often take with them wherever they go.

If water isn't something you get all that excited about, they also have reusable cups for hot and/or cold drinks that are equally big hits.

Make sure you choose items that are easily portable so they get added exposure as supporters carry their bottles or cups with them as they go about their busy days.

These 7 Campaign materials for election get top marks from campaigns and constituents alike.

Make sure you have a wide cross-section of Campaign merchandise ideas to hand out at events to keep people coming back for more and encourage them to spread the word about their favorite political party or candidates.

Listed above are just a few things needed for a political campaign out of many options.

Feel free to call us for free consultations on Promotional Gift Items and Election branding materials printing in Nigeria.

We can recommend several types of Election campaign materials and we are also open to brand any types of Printed campaign materials you desire.

How to get 2 months of a corporate business email address for free – yo*****@*****ny.com

Sending emails from your corporate email address like na**@*****ny.com helps to enhance your corporate image. The challenge is that if you rely on the email from your website hosting server, you will have issues with being able to have your important business email delivered into the recipient's inbox, most often the email goes to spam or is not delivered at all, because your website hosting server is not an email server, Hence the reason serious business people host the corporate email on a proper email server.

But with the naira sliding downwards against the US Dollars on daily bases I can understand the negative impact it is having on your business!

We had a client who is right where you are now some months back, the client had 48 staff and all had corporate email addresses at \$6 per user per month which is \$72 per year. And $\$72 \times 48 = \$3,456$ (Three thousand four hundred and fifty-six dollars), as at the time he wanted to renew with the previous provider the exchange rate was 655/\$1 and he was to pay N2,263,680.

When I told him we could save him a million naira, you can understand the joy, we migrated his account to another corporate email provider that charge just **\$25 per year, \$25 x 48 user = \$1200, 00 x N655 = N786, 000.**

We actually saved him N1, 477,680 (One million four hundred and seventy-seven thousand six hundred and eighty naira)

You are losing lots of money using an expensive corporate email address provider because they show you lots of other features when in reality what you and your staff use is just an email.

My kind advice to you.

If you don't want to switch to a more affordable email platform, another thing you can do is create a corporate email address for only the senior staff names, and for the rest of the staff create a department-based corporate email address.

For your admin department for example, instead of creating a corporate email address with an individuals names like jo**@*****ny.com, create ad***@*****ny.com, With that method, you will save money in two ways

1. If you have 2 people in admin both will use one email and enter their names when they are sending an email.
2. If anyone resigns and you employ another person you don't have to pay for a new email account for the new staff, the person will just continue from where the other staff left off, that way no communication will be

lost as well.

Corporate email address price comparison in Nigeria

Providers	Google G Suite	Microsoft Office 365	Private Corporate email
Monthly cost per user	\$6	\$6	\$2.5
Minimum Yearly cost per user	\$72	\$72	\$25

The only difference is that the first two have some other features like Video, Documents, Spreadsheet, etc. But you can get all those other features at no cost online and offline.

If you have up to 5 staff you are most likely losing lots of money yearly, and it will continue to increase as long as the Naira continues to slide downwards against the US Dollars.

Take action today and save more money you can channel into other important parts of your business.

In the past decade we have worked with brands in various

states in Nigeria and outside like Lagos, Abuja, Port-Harcourt Rivers state, Kaduna, Ogun, Ibadan Oyo State, Anambra state, etc.

We also have clients across different sectors of the economy like FMCG, Real Estate, technology companies, Fintech, Banks, travel, entertainment, betting, beverages, Health, government agencies, etc.

Digital marketing services we offer include

Display campaign

We develop a full-proof digital marketing strategy and ensure that the right audience is targeted using the Google display network and alternativeadvert.com ad server to ensure maximum results. We also create all adverts banners.

Video Marketing

Video marketing is fast becoming a must when it comes to digital marketing with the emergence of YouTube, Tiktok, Facebook, Instagram, Twitter, and other video sharing app, and since we understand the trend we usually create an engaging video to promote our client's products or services.

Search Engine Marketing (SEM/PPC)

Search engine marketing grabs the attention of your audience at the right time

Research shows that 90 percent of people who research [online](#) know exactly what they're looking for. Otherwise, they wouldn't have used the keywords you are targeting.

We would create a search engine marketing campaign with some keywords relevant to your brand and services.

This means that you're getting your Brand and ads in front of a highly engaged target audience, who are actively looking for offers like yours – all for a low cost and without having to impose on them.

Social media marketing

We use the top three social media platforms, (Facebook, Twitter, and Instagram), and leverage their individual uniqueness and varying audience to drive quality traffic to your business in a way that generates more leads for your business.

Objective: Leads, Impressions, engagement (Likes, comments, shares, interactions), and click-through action to your website for signup, download, etc.

Resources: Sponsored posts, Lead generation adverts (Signup action, download, etc.)

Search engine optimization (SEO)

We make cautious efforts to optimize our client's website and apps or pieces of content TO rank higher on Google and other search engines.

The key difference between SEO (Search engine optimization) and paid advertising (SEM) is that SEO involves "organic" ranking, which means you don't pay to be in the top position on the Search engine result page (SERP)

Social media management packages in Nigeria

Our Social media management in Nigeria involves a process of analyzing your social media audiences and then developing a social media strategy that will be tailored to your needs.

We also create and post content on your social media profiles a couple of times a week depending on the package you pick, We also monitor online conversations, collaborate with influencers, monitoring and measure your social media activities.

Email marketing

There is bulk email marketing and email automation, in recent times bulk email marketing in Nigeria is not as effective as it used to be, as we often recommend email automation instead.

Email automation is a very effective way to communicate with potential customers or clients because it allows you to send emails to specific users at specific times.

Email automation enables you to create emails that reach the right customer or clients with the right message at the right moment, without you being present on your system.

We will set up automated messages leveraging some email marketing automation tools.

Website development

The importance of website development for your business can not be overemphasized, because a well-developed and optimized website will do the following

- A. legitimizes your business
- B. Improves your credibility.
- C. It gives your business an identity
- D. It's a virtual proof that it exists

Some other Advantages of having a website for small businesses include

1. Low-budget web development.
2. Wider audience reaches due to the website's 24/7 accessibility
3. Brand visibility and brand recognition
4. Easy online promotion of your business with a website.
5. Customer insights by tracking user behavior on your website using analytic software.

Mobile app development in Nigeria

We recommend and develop mobile apps for our clients, because Mobile apps eliminate the need for tangible marketing goods, and you can cut down on digital and traditional marketing campaign costs. It has been proven that Mobile applications can even help you save money internally.

We will develop a super mobile app that will enable you to get the following benefits

1. A Mobile App Can Increase Sales.
 2. Compete with Larger Businesses.
- iii. Communicate Directly with Customers.
1. Simplify the Buyer Journey.
 2. Build Customer Loyalty.
 3. Build Your Brand Value.
- vii. Create a Direct Marketing Channel.

viii. Provide a Personalized Experience.

INSIGHT INTO THE BENEFITS OF DIGITAL MARKETING

Measurable and Well-Automated Digital Marketing

Digital marketing can be tracked through detailed diagrams. Or a dashboard that clearly users activities traffic growth, New and returning users, leads, and deals transformations from your particular marketing efforts.

Utilizing free analytics tools like Google Analytics will help you measure the success of your digital marketing campaigns and an internet-marketing audit helps you perceive how well your digital marketing projects are performing daily.

Another powerful benefit of using Internet marketing (IM) is the power of easy, result-oriented automation and it has a superior time-saving opportunity.

We will use the best tools for your digital marketing campaigns that will automate your campaign in a target-oriented fashion, and at the same time, you can invest your energy in accomplishing something else.

Segmentation:

One of the key advantages of marketing over digital platforms is the ability to target specific customers, it also allows for detailed customer segmentation.

Customer segmentation is the process in which large customer groups are further broken down into smaller groups of customers according to a particular classification. Segmentation increases the chances of sales, as well as cuts down on cost.

Adequate information must be collected from subscribers for segmentation to work effectively in any given campaign.

Greater engagement:

The internet is getting noisier by the day, and any product or service that your business offers is most likely also being offered by thousands of other businesses.

If a visitor to your website does not immediately find what they are looking for? They are most likely to leave for an alternative. That is the main reason we often create engaging content and provide precise information to visitors to ensure increased engagement and conversion.

DEMOGRAPHIC TARGETING

Digital Marketing is Powerful in Demographic Targeting, Provides Real-Time Results, and Ensure Quick & Convenient Service Delivery.

Knowing how much a digital marketing campaign effort can target and measure the reaction from particular demographics is quite astounding to entrepreneurs who generally prefer traditional media advertising.

Some online platforms and analytical software can permit you to explicitly focus on the particular buyer demographics. To target doctors, owners of hospitals and medical facilities, and the general public, you will require a digital marketing methodology to contact them where they invest the majority of their time i.e. on the Internet.

With Various digital marketing platforms, you do not need to hold up weeks to see a noticeable boost in your business. With paid digital marketing platforms like Google, Facebook, Instagram, etc. You can see real-time results that empower you to adjust your marketing campaign to accomplish the result you always wanted.

There might be a few chances where online marketing might not work up to expectations. Hence, with continuous real-time monitoring, we can precisely find out where the marketing campaign is going wrong and therefore enforce a better strategy that will guarantee a better result.

[See the cost of outdoor advertising billboards in Nigeria](#)

Indoor and outdoor [billboard advertising in Nigeria](#) is a traditional medium of advertising goods and services, that is readily available throughout Nigeria, the channel has proven to be a very effective medium of advertising to date.

When running an Indoor and outdoor billboard campaign in Nigeria we recommend a combination of the traditional and non-traditional adverting options like digital marketing.

Choosing Indoor or outdoor [billboards](#) advertising is a no-brainer for most brands and it is most time the first choice for most marketing agencies in Lagos, the reason is that it has been established to help increase the reach and the frequency of the brand's overall campaign for a product or service.

Billboards advertising costs in Lagos, Abuja, Ogun state, etc.

When it comes to Billboard advertising costs, Lagos is the most expensive of them all followed by billboard advertising

costs in Abuja and Ogun state.

The reason is that those three cities are the most experiential marketing city in Nigeria due to their population density, dynamic companies (e.g. banks, tech startups, retail, fashion, media, manufacturing, real estate, etc.), and the millions of consumers that take public transportation on a daily basis.

The cost is usually between N350,000 and N650,000 per month for static billboards while digital (LED) billboards are from N1,000,000 to N2,500,000 per month.

We are committed to ensuring that Billboard advertising cost in Nigeria is as affordable as possible, and we work with businesses of all sizes from top industries to SMEs to design, print, and install Indoor and outdoor billboards in Lagos, Abuja, and virtually all states in Nigeria.

Types of billboards

There are several types of billboards but we will concentrate on just 3 for the sake of the article

1. Bulletin Billboard (Link to the various categories)
2. Digital Billboard
3. Mobile Billboard

Bulletin Billboards

The bulletin billboards are the classic boards you see here and there, there are the traditional billboard you see very often, They're usually 48 feet wide and 14 feet high, so that consumers driving and walking by can easily read them. And they are typically found on:

- Expressways
- Roads with heavy, dense traffic
- Highways

The average cost of bulletin billboards can range from N250,000 to N700,000 per month, depending on the location and production cost. These kinds of boards are comparatively more affordable compared to electronic billboard price (LED).

Digital Billboards

On busy roads in Lagos, Abuja, and the central parts of other cities in Nigeria, you can find digital billboards displaying everything from personal care products to services from telecom providers, banks, etc.

Because they're impossible to look away from, most times they are placed in crowded areas so that the maximum number of people can see them.

They bring a lot of exposure to brands and can easily be customized, which is why they can also be expensive.

The cost to have a digital billboard ad can be anywhere from N1,000,000 to N2,500,000 monthly, but the average tends to be a little over N2,000,000. If you consider other factors such as location and demographics, the price could go even higher.

Mobile Billboard

Mobile billboards are of two types, the flex, and the LED and they are what the name suggests: an advertisement on wheels.

The Mobile billboards can easily get around, which is why they're perfect for bigger events. They follow the target audience around and can cover lots of ground.

The static (Flex printing) like most billboards can cost N50,000 to N100,000 while the LED can cost between N250,000 to N700,000 depending on the state how many vehicles are involved and for how long.

The advantages of Mobile Billboards (Flex and LED)

- Access places that static billboards can't
- Low competition from other billboards
- Targets a wider audience i.e. pedestrians, drivers, highways, and suburban streets

The cost of advertising on TV can seem both confusing and expensive but it is one of the best mediums to advertise your business or product and reach a wider audience.

The cost of advertising on TV stations in Nigeria depends on so many things and I will list them in this article. Whether you're a small brand, a new business or an established company, we can talk you through your options and get you up and running.

Let's take a look at the costing example below as a starting point. It covers regional costs and some National Digital channels. It's followed by a few suggestions to consider when budgeting and best of all, a quick look at how a TV advert can actually cost you NOTHING!

THE COST OF ADVERTISING ON TV STATIONS DEPENDS ON THE LENGTH OF THE AD.

The cost of advertising on TV stations depends on the length of the ad, who produces the ad, the markets in which it airs –

as well as how many times it has been aired – all determine how much television advertising costs.

Commercials aired in local markets range anywhere from a few hundred dollars per ad, up to several thousand dollars, if the ad airs nationally.

The length of the ad also influences the price. A quick, 10-to-15 second ad will be less expensive than a 30- or a 60-second ad. Most stations are offered shorter commercials to follow a faster-paced society with a greater number of ads during a show than were shown several decades ago.

The Number Of Times Your Ads Will Be Put On Air

Local television stations usually have an in-house production company that can write and produce advertisements with their own marketing team.

The local stations can also help to figure out which demographic would benefit most from your ad, and from there, the number of times your ad should air.

Often, they will create the ad for a nominal fee or even for free – the catch is that you have to sign a commitment to pay to air the ad for a certain amount of weeks or months. But if you were already planning on a marketing blitz, this may be cost-effective for you.

Choosing an Appropriate Airtime

Choosing an appropriate time depending on what you are advertising, so it can get to the right audience. It can be aired after dinner but before bed, and people are most

available and willing to watch television.

It's loosely defined as between 7:00 pm and 10:00 pm, Central Time or it can run earlier or later, depending on your local market numbers for its 6:00 p.m. and 10:00 p.m. news shows. This is when running TV ads is the most expensive.

Ads during the early evening run are usually higher because of the large viewership. The price drops dramatically during the day to a low of a few hundred. Airing during highly rated syndicated shows will put you at the higher end of the going rate.

The Time of Year

When planning to invest in television advertising, then January is your time to do that. Stations are coming off of heavy holiday expenditures and they're hungry to generate revenue.

Ask them to wheel and deal, and you can come away with a comparative bargain. Some stations offer 3, 6, and 12-months contracts, and they will discount you anywhere from 5 to 10 percent, if you sign with them during the rest of the year.

So it is in your best interest to bargain for deeper discounts during the first part of any new year.

So how much does television advertising really cost? It depends on your markets, your airtimes, and your needs. The great news is that stations are always ready and willing to work with your budget and your needs, so there is no reason not to market yourself fully.

The cost of advertising on TV may vary depending on different aspects. In order to understand how much does a TV ad cost, you need to make sure you know the features you want it to have.

The length of TV advertising is an important factor that will

definitely influence the final cost

CNN advertising in Nigeria

CNN advertising in Nigeria and sub-sharan Africa. Advertising through CNN is a productive advertising method in the Television media type. It helps your brand reach out to the right target audience.

Television advertising helps the advertiser to target a very large group of people and also provides the ease of targeting a fixed time band based on the requirement.

Advertising through CNN is suitable for a brand that is trying to reach out to a large number of premium users within specified geography in a small time.

Since the channel conveys different sets of programs, it appeals to almost everyone in the family thereby assuring a complete household reach.

CNN is the leading Television Channel and is strongly approved for all marketing campaigns.

HOW TO SELECT THE RIGHT AGENCY IN NIGERIA FOR ADVERTISING IN CNN

Media agencies can play a decisive role if you are planning to advertise on CNN. There are several roles that a media agency plays while carrying out your TV campaign.

Firstly, the media agency will help you in determining whether advertising in CNN is right for your brand.

The agency uses BARC data to decide the TG and CNN viewer profile matches.

Once you have decided to go ahead with advertising in CNN, the next step for the TV ad buying agency is to organize the frequency and timing for the ads (called spots) and agree on the right price.

Planning the adverts will revolve around the campaign objective and the pricing, while advertising in prime time might give you the highest reach but the agency might suggest a non-prime time as it grants a lower cost per reach.

Such variables can be handled by the media agency while buying advert space in CNN.

The last role of the TV advert buying agency is to ensure that the advert is played on CNN and issue the advertiser with the number of people who saw your advert.

HOW DOES CNN ADVERTISING IN NIGERIA WORKS

Adverts in CNN are shown both during the break as well as during the content being played.

There is more creative space while placing an advert during the break, whereas messages need to be packaged with the content while selecting the advertising options during the content.

Some of the approved advertising options on CNN are:

a) **Video Ads** – Video adverts are broadcasted during ad breaks. The minimum time for a video ad is 10 seconds and increases by 5.

b) **L Bands** – Aston Bands are thin horizontal strips that show during a program at the bottom of the screen. The Aston Band time-scale per exposure is 10 seconds. Choose the number of Aston Bands per day and the total number of days you'd desire to advertise. Prices vary in agreement to the time the band is chosen.

c) **Brand Integrations** – These are custom media options and are designed based on your advertising budget and the objective.

HOW PRICING WORKS

- Rates revolve around the creative length, time band selected, and duration of the campaign
- Premium charges are functional for targeting specific programs, spot positioning, and crunched time bands.

EXECUTION DETAILS

To advertise in CNN you can adhere to the following steps:

1. Acquire rates for advertising in CNN on the Media Options and Pricing page. Note that rates differ as per the time band. You should add the media to your bag and choose the time bands there.
2. Select the advert type that is convenient for your

creativity, objective, and budget. CNN offers video ads, scrollers, Aston Bands, and Brand integrations for advertising. Moreover, you can also select from the digital advert formats.

3. Other factors that require a decision are Advert length, the total number of adverts, Time band, start date, and Campaign duration.
4. Check the advert space availability on CNN and other privileges like discounts, depending on the time of booking
5. Make the payment for advertising on CNN and submit the artwork.
6. Tentative log timings will be distributed on a daily basis so that the client can watch their adverts live which is being shown on CNN.

RADIO Advertising in Nigeria

Radio advertising in Nigeria is a form of marketing strategy that uses the radio both traditional stations, and satellite and internet radio to boost a product or service.

It is a less costly form of advertising in many cases, compared to that of television advertising.

With the advancement in technology, radio advertisements are becoming improved when it comes to quality.

Regardless of the competition from other modes of advertisement, Nielson Audio reports that 243 million people listen to the radio and also listen to advertisements on the radio.

Radio advertising in Nigeria has proven to be an outstanding medium for reaching audiences through its high penetration levels and repetition.

Radio adverts are also highly memorable and gives rise to excellent consumer recall and a high call to action.

Empire can propose the best stations for your target audience and objectives within Nigeria and help you project your radio adverts from start to finish.

Let's dive into some **radio advertising** basics to help small businesses be quick-witted with how they buy radio adverts.

FORMAT FOR RADIO ADVERTISING IN NIGERIA

The format decides the audience the station appeals to and the message it delivers to advertisers.

Some of the most common **radio advertising** formats include:

- Progressive rock
- Alternative
- Classic Rock
- Golden oldies
- Christian Rock
- News and Talk Radio
- Classical
- Adult contemporary
- Easy Listening

ADVANTAGES OF RADIO ADVERTISING IN NIGERIA

Some people may think that radio advertising is becoming more outdated because of the prevalence of the internet and other related advertising platforms.

However, this is not the case millions of people all over the country are still listening to the radio, with the majority of them listening from inside their vehicle or at their home.

Many companies are still administering marketing budgets to the radio to take advantage of the benefits listed below.

▪ **Selective Targeting**

Each radio station within your market will target specific demographics and market segments. These are usually designated by the programming, type of music being played, the on-air personality, and what time of day your **radio advertising** will run.

▪ **Increased Frequency**

Radio advertising is described by many as a frequency medium. This means that radio relies on repetition, aka frequency of message to be effective, unlike television advertising which relies on reach and visual presentation.

Playing your advertisement numerous times ([some say](#) it takes 3 times hearing a spot before you internalize it, acknowledge it, and remember it) will ensure that your listeners will be familiar with your product or service.

▪ **More Memorable**

Radio advertisements can be more extraordinary compared to written and visual adverts. According to researchers, sound can be stored effectively inside memory for a longer time than visuals. This is why some companies are doing their best to design a memorable jingle that will stick in the minds of those who will listen to it.

▪ **Cost-Effective**

Radio advertising is cost-effective when compared to that of television and print advertisements. Usually, the cost to design the spot if you don't have one will be included in the radio advertising campaign's price.

- **Short Time to Market**

When creating a television or print advertisement, the time frame needed to create a single commercial or print ad would span for weeks or even months. However, with radio advertisement, a radio host can advertise the product or service in a split-second.

DISADVANTAGES OF RADIO ADVERTISING IN NIGERIA

- **Poor Attentiveness**

One of the most common disadvantages of advertising on the radio is the poor attentiveness of the people who are listening. Many people are either changing channels on their radio when driving or are too absorbed on the road to pay attention to what is being said on the radio.

- **Lack Of Visual Appeal**

Compared to television which uses the sense of sight and sound, radio advertising only influences one of the five senses sounds.

One way to offset this is to make use of additional advertising channels that the radio station has such as buying ads on their website or for sponsorships at events.

▪ **Buying Spots Can Be Challenging**

Radio stations have regional sales reps that also prefer spots to bigger brands. Often, these spots are organized far in advance and take inventory away from new advertisers; thus, sometimes the process of obtaining the spot you want when inventory is low can be difficult.

We suggest using a unique phone number or website address that can only be attributed to the radio advertisement. This will help you better track the feedback you're getting from your radio advertising.

BRT Branding

BRT BRANDING: An Efficient Advertising Strategy

It is not uncommon to quickly skip video adverts playing online or change the channel when a particular advert runs on your TV station. But avoiding the sight of a moving bus when stuck in traffic or about to catch a bus at the park is impossible.

BRT buses are a common thing in all Lagos Roads with a teeming population of about 60 percent working class plying the roads daily to make ends meet. With a structure that makes it stand out among other transit media in Lagos, BRT buses are sometimes considered a luxury transit as it affords their commuters comfort and speedy movement to their destinations.

It is very common to say that the city of Lagos is the commercial heartbeat of the whole of west Africa with a densely populated environment, high commuters on the road networks giving rise to stopovers, and several traffic posts and lamp posts on the roads.

The importance and effectiveness of BRT Bus Branding and Advertising cannot be undermined in Nigeria, especially Lagos.

The BRT BUSES uniqueness lies in the fact that it goes out to meet its customers as against its, Wall drapes, Light-boxes, Unipolar, and other Bus Shelter counterparts that are stationed in one place.

BRT Bus branding is a cost-effective way to turn the promotional bus into a professional and high-impact, mobile advertisement. Wherever the bus travels within Lagos you'll be building the brand or promoting the campaign.

It also provides your business with a moving advertisement at very affordable prices. It is, therefore, safe to say that BRT Bus Branding is an intelligent investment when it comes to advertising.

These buses are branded on two sides (both) ends, and even the rear is used for advert branding, making other motorists and people around see the message that you are passing across.

The structure and colors of the BRT buses allow a colorful sight to commuters when it passes by, which makes it seen from various angles. They can be checked and monitored for the purpose of ensuring that serves the right audience with the advertising objectives.
